## WORK EXPERIENCE

### A+E Networks

Senior Product Designer | January 2020–Present

Product Designer | November 2018–December 2019

Work closely with product team members (product owner, front-end developers, software engineers, designers, etc.) to develop best-of-breed digital products that meet the needs of users and drive business goals and objectives. Define, develop, and communicate UX direction via sketches, wireframes, user flows, interfaces, and prototypes.

### A+E Networks

Visual Designer | November 2016–October 2018

Worked with product and marketing teams on integrated campaigns, email design, Social media campaigns, and various other creative tactics to market AVOD and SVOD platforms. Developed design visuals assets for ongoing digital initiatives that include digital prototypes, wireframes, landing pages and animation.

### A+E Networks

Digital Marketing Designer | April 2016–December 2017

Played pivotal role in the production, maintenance, and promotion of A+E's portfolio of websites and digital media products. Worked side-by-side with all members of the design team (on brands such as A&E, History, Lifetime, FYI, and LMN) to produce beautiful, compelling and innovative products that span across digital platforms.

### MTV Networks

Graphic Designer | August 2015–February 2016

Worked with both the on-air and off-air creative to design materials for print and television including branding and show packaging for new content. Also created logos, presentations, and storyboards for new and existing shows.

### 87AM

Designer | March 2015–July 2015

Worked within the creative team with client services, digital marketing and design. Created creative materials for all digital platforms as well as flash ad units. Some clients include: **IFC, Showtime, Disney, Soliel Toujours, Feld Entertainment, Blue Man Group, Dr Zhivago, Hello Kitty, Marvel Universe Live, The Lion King-Broadway**
